

Theme Nights

When it comes to Theme Nights - try Cwazy DJ 3000, choose one of our great themes (or one of yours) to suit your party that you'll never forget.

Don has been in Theatre for a long time and likes the idea of having theme night and we will put in over 100% effort to make the night a success, we even decorate the DJ console and in costumes just for your party.

Here are a few tips of finding the right theme for the night:

Ask and get ideas from your guest about what type of theme to use.

Use the Search engine on the Internet for great ideas.

What type of music would you use with the theme - eg. Happy Days Theme - 50's and 60's music.

What props would you use for the theme - (Cwazy DJ 3000 will help as much as we can with the props.)

Have prizes on the night for best costumes and Cwazy could organise different types of games.

Having themes would be a lot of fun for all ages.
