

Layby

Layby

Cwazy DJ 3000 is offering a Layby packages for those, who don't like to pay all at once when the party is due - Layby is the next option, especially if your party isn't on until next year; each month instalment, right up to the night of your special occasion.

For example if you are having your wedding in June, 2010 and it's only May, 2009 and the Reception is \$600, then Cwazy DJ will work out how much a month you'll need to pay right up to the night of the event.

= \$46 a month, which you can pay either at Cwazy Shop each month, Bank Transfer or Paypal.

Every time that you'll make a payment you will receive a receipt and the invoice of your outstanding amount by email.

So if you decide that layby would be a great way and help you in paying for the night, then one of our team will sit down with you and work out the best possible way for your monthly instalment. Keep in mind that once you decide to go ahead with the Layby package - you don't need to pay the \$80 deposit, just the first instalment.
